

SIX INFALLIBLE PROOFS THAT: THERE IS A CREATOR GOD; AND, THAT THE HOLY BIBLE IS GOD'S WORDS TO MANKIND.

Internal to God's Holy Bible

1. *Bible Prophecy* - *God's Prophecies* - most have been fulfilled unerringly. There is no reason to believe that the remaining prophecies will not be fulfilled to the letter as well. We are living in the "Last Days" leading up to the Second Coming of Jesus Christ as "King of Kings and Lord of Lords" of this world, and Armageddon.
2. *Bible Numerics* - *Ivan Panin Greek and Hebrew Language* (see three following).
3. *Bible Code (1994)* - *Eliyah Rips, Doron Witztum, and Yoav Rosenberg, Greek and Hebrew Language*
The Holy Bible, through the many translations, is very readable, yet contained within the words in the original Hebrew and Greek languages is a remarkable *mathematical precision*, and complex mathematical formulae which reveals an artistry which cannot be duplicated by any man. This has been discovered through the work of two sets of mathematicians a Russian, Ivan Panin, and Jewish mathematicians.

External to God's Holy Word - Creation & Pictures

4. *The Micro-world of Bio-Chemistry* - *Michael J. Behe*
Darwin's theory of evolution scientifically disproven once and for all by the combined results of thousand of individual scientific experiments and investigations conducted by scientists throughout the world in this new science made possible by the electronic microscope and development of bio-chemical analysis, since the 1950's.
5. *And the Macro world of Astronomy* - *The Heavens*
6. *The Chinese Language*.
The pictograms reveal that from the beginning of time, men knew the one true living God. Eternal truths of the Bible have been preserved in the Chinese language in a series of "pictures" dating back to Genesis times.

INTRODUCTION

The Holy Bible consists of two major books: the Old Testament, preserved for us in the Hebrew language by Jewish Scribes who were trained in the discipline of copying the Old Testament (there were no photocopiers in those days); and, the New Testament preserved by Christians in the New Testament in Koine Greek.

The Holy Bible claims that it contains the words of God Himself, that is, it is truly Holy – set apart – from all other books in this world, particularly other “holy” books of other religions.

“ ..no prophecy (spoken or recorded word) of Scripture is of any private interpretation, for prophecy never came by the will of man, but holy men of God, spoke as they were moved by the Holy Spirit. “
2 Peter 1: 20-21

*“ All Scripture is given by inspiration of God, and is profitable for doctrine,
for reproof,
for correction,
for instruction in righteousness,
that the man of God may be complete, thoroughly equipped for every good work ”.*
2 Timothy 3: 16-17

In other words, The two statements are either right or wrong. The scientific, historical facts, and internal evidence prove the statements to be 100% accurate.

This series of six discussions summarise the infallible proofs that The Holy Bible is what it says it is – the words of The One true God recorded by holy men (especially chosen by God) who wrote down what The Holy Spirit directed them to write. Any one of the proofs is sufficient to establish the truth. All six proofs combined set the truth in concrete. We can be absolutely certain that God's Words, His thinking, His thought patterns, are in the Holy Bible ! Thus we can respond to His great agape love, when He sent His own beloved Son, Jesus Christ, into this world to save each and everyone of us.

There are four indelible “water marks” or seals of an invisible Creator are internal to the Holy Bible.

The logical and scientific defense of belief is necessary to maintain a distinction between spiritual Truth and Lies, right and wrong, truth and falsehood, light from dark. We must be able to establish a provable standard to base thinking. It is this writer's belief that the Holy Bible is this standard of measure. Such a mind-set is takes a person out of their own cultural background and all the programming that that entails. It releases one into a freedom to strike out onto the road of Eternal Life – with one's head in Heaven and feet firmly planted on earth.

This writer however does not believe that acceptance of the contents herein will necessarily cause the reader to believe in Jesus Christ. This is the work of God – He alone knows who is saved and who is not – for all is by divine Grace. The Potter knows which vessels are created to be saved and which are to be destroyed. Every good gift comes from God. Salvation is a gift, as is spontaneous confession and repentance which launches us out on the path to eternal life. Being kept on that narrow and difficult road is also a gift through the power of the Holy Spirit.

1. Bible Prophecy and history. Read: The Holy Bible.

Scholars say that approximately 1/4 of the Holy Bible is prophetic. Bible Prophecy attests to God's existence, and to the truthfulness and accuracy of His Words. God says that he declares what is going to happen before the event so that the hearers cannot claim responsibility or say that their idols told them.

There are approximately 103 prophecies relating to the person of Jesus Christ – his birth, death and resurrection – each one fulfilled to the letter! The Second Coming of our Lord Jesus Christ is mentioned 318 times in the 260 chapters of the New Testament – an average of once in every 25 verses. Today many ancient, Old Testament sites which have been unearthed remain silent witnesses to the unerring accuracy of the God's prophetic word challenging men to try and make the prophecy wrong! Based on historical evidence, if all of the prophecies of old have been fulfilled to the letter, then the remaining ones concerning Jesus Christ's Second coming are a dead-cert to be fulfilled. It is no accident of history that the hot spot of the world today is Israel – it is here that the great apocalypse will take place and the curtain of world history will be drawn.

For instance:

Isaiah 48:3-5. [eg Sodom & Gomorrah c.2,300bc - **Genesis 19**, Babylon 783 BC to be utterly destroyed - The city has never been rebuilt and it's ruins lie in Iraq.

Isaiah 13:19-22, Tyre to be destroyed and never to rebuilt - a place for spreading nets - and so it is today.

Ezekiel 26:1-14, Egypt prophesied never to rule over nations, and will be destitute, desolate **Ezekiel 29:14-15, 30: 6-7, 32: 12-15.**

Jesus Christ Over 100 prophecies were fulfilled with the advent of Jesus Christ, and 33 prophecies were fulfilled on the day Jesus Christ died.

We await the fulfillment of the final end-times prophecies

2. Ivan Panin and Bible numerics. Read: The Shorter Works of Ivan Panin “ Bible Numerics” Published by The Association of the Covenant People, 7730 Edmonds Street, Burnaby, B.C. Canada V3N 1B8, Printed in Canada, available in New Zealand from the British-Israel Bookshop, Dominion Road, Auckland.

Ivan Panin, (1855- 1942), born in Moscow, Russia 12-12-1855, *fell asleep Ontario, Canada, 30-7-1942. (*in the New Testament believers do not die – their death is mentioned as “falling asleep” referring to the fact that a Christian's spirit goes to heaven to be with the Godhead).

This Russian mathematician was introduced to elementary concepts of numbers in The Holy Bible by missionaries. On analysis, he discovered that complex numerical designs could be found right from the first book Genesis through to the last book Revelations. He concluded that it was impossible for any man to have written any of the words, except with the inspiration of The Holy Spirit. He was forced, by logic, to admit that Jesus Christ was who He said He was, God's son – born of a virgin Mary, who came as a sacrificial lamb to die for the sins of this world, died, rose from the dead on the third

day, and appeared to his own family, disciples, and many others who became believers. Ivan Panin became a Christian. He devoted his life to presenting this evidence around the world.

Ivan Panin converted the whole of The Holy Bible into numbers – he was able to do this as the original Hebrew (Old Testament) and Greek language (New Testament) have alphabetical systems which are also numerical systems. Latin is partially similar. In comparison, the English alphabet is different from the numeric system.

He issued a public challenge in the height of the great debate on evolution for anyone to write anything like the numerical designs he revealed in the analysis of the first chapter of Matthew's account of the Gospel. That challenge has yet to be answered! This writer believes that the challenge is unanswerable.

Some practical uses.

Bible numerics confirms the inspiration, and it enables scholars to settle the exact text of the Old and New Testament. For instance scholars debate the inclusion of the text of Mark16: 9 - 20. Panin is able to prove conclusively that the verses 9-20 are constructed with “ exactly the same numerical design as the first page of Mark proving that the verses are written by the same unparalleled literary mathematician ”.

3. The Bible Code.

Read: The Bible Code by Michael Drosin

Published by Weidenfeld & Nicolson London 1997.

“Statistical Science”, a scientific paper entitled “ Equidistant Letter

Sequences in the Book of Genesis ” August 1994, Vol.9, No.3, pp429-438.

The Bible Code is a discovery by three Jewish mathematicians: Eliyah Rips, Doron Witztum, and Yoav Rosenberg, (publication August 1994), who did computer analyses of the Pentateuch or Torah (the first five books of the Holy Bible). They have discovered that Words written about 3,000 years ago reveal precise names, dates, geographical location, and outcomes of events which have happened and will happen. Of special interest are events in Israel today.

To find the code Rips first eliminated all the spaces between the Hebrew words and turned the entire Torah (The first five books of the Old Testament) into one continuous letter strand, 304805 letters long. Names and words are fed into the computer. The computer searches for these names, words and phrases by a particular skip code. It starts at the first letter of the Torah, and looks for every possible skip sequence – words spelled with skips of one, three, all the way up to several thousand. The computer then cuts the strand into two rows of equal length, and stacks them one upon another, so that the hidden word appears vertically or diagonally. After it finds the key word, the

computer then looks for related information. Time after time it finds connected names. The computer scores the matches between words, using tow tests – how loosely they appear together, and whether the skips that spell out the search words are the shortest in the Torah.

Using the Gulf War as an example Rips explains: “We asked the computer to search for Saddam Hussein. Then we looked for related words to see if they come together in a way that was mathematically significant. With the ‘Gulf War’, we found ‘Scuds’ with ‘Russian missiles’ and the date the war would begin encoded with the name ‘Hussein’. The words formed a crossword puzzle. Consistently, the Torah code brings together interlocking words that reveal related information. With Bill Clinton, “president”. With the Moon landing “spaceship” and “Apollo 11”. With Hitler, “Nazi”. With Kennedy, “Dallas”. In experiment after experiment, the crossword puzzles were found only in the Torah. Not in War and Peace, not in any other book, and not in 10 million computer-generated test cases.

Dr Eliyahu Rips wrote to Yitkhak Rabin, Prime Minister of Israel warning him that “ his name Yitkhak Rabin is encoded in the Bible, the words ‘assassin that will assassinate’ cross your name. This should not be ignored, because the assassinations of both Anwar Sadat and both John and Robert Kennedy, are also encoded in the Bible – the case of Sadat with the first and last name of his killer; and the date of the murder, and the place, and how it was done. I think you are in real danger, but that the danger can be averted. No one can tell you whether an event that is a encoded is pre-determined, or is only a possibility. My own guess is that it is only a possibility – that the Bible encodes all the probabilities, and what we do determines the outcome. “ Rabin was shot in the back on November 4, 1995, more than a year after this letter was delivered to Rabin by his close friend, the poet Chaim Guri. His murderer was a man who believed he was on a mission from God. This murder was encoded in the Bible 3,000 years prior.

Rabin’s name appears only once in the Bible. The odds against his name appearing with the prediction of his assassination were at least 3000 to one. Mathematicians say 100 to one is beyond chance; the most rigorous test ever used is 1,000 to one. The odds of finding encoded information by random chance is one in 10 million.

The code reads: “In 5756 – Rabin assassination – Tel Aviv – the Hebrew year that began in September, 1995. The name of the assassin, “Amir” was found above Rabin’s name together with, in the same verse, “He struck, he killed the Prime Minister” and “His killer, one of his people, the one who got close” (p.17).

There is an infinite amount of information encoded in the Torah, and the whole Bible. Each time a new name or phrase is discovered in the code, a new crossword puzzle is formed. Related words cross vertically, horizontally, and diagonally.

The results of the computer analysis were announced to the world in a scientific paper published in the “Statistical Science” , entitled “ Equidistant

Letter Sequences in the Book of Genesis " August 1994, Vol.9, No.3, pp429-438. This proved the existence of the Bible Code. The journal's editor stated in a prefatory note that: 'Our referees were baffled: their prior beliefs made them think that the Book of Genesis could not possibly contain meaningful references to modern day individuals, yet when the authors carried out additional analyses and checks the effect persisted'.

The abstract states: "It has been noted that when the Book of Genesis is written as two-dimensional arrays, equidistant letter sequences spelling words with related meanings often appear in close proximity. Quantitative tools for measuring this phenomenon are developed. Randomisation analysis shows that the effect is significant to the level of 0.00002".

The mathematical analysis has not been refuted by peer review.

What this means is that whilst the Holy Bible was written over a period of a few thousand years by many different writers, it contains a seal of prophecy as in a gigantic three dimensional crossword puzzle. It is possible, using super computers, to discover names and events which have unfolded in world history, particularly in very recent history – but only after the events! In some instances it has been shown that future events can be revealed.

4. The Science of biochemistry proves the existence of a true living God, the intelligent designer.

Read: Darwin's Black Box – the biological challenge to evolution by Michael J. Behe. Publishers The Free Press, New York, London, Toronto, Sydney, Singapore. 1996.

Darwin postulated in the theory of Evolution that life arose from non-living matter and subsequently developed or evolved entirely by natural means. He based his theory upon scientific observations and the assumption that the smallest element of life was the cell. He acknowledged that if there was life within the cell, then his theory would be invalidated. Thousands of scientists, conducting scientific experiments have contributed to the new understanding that the smallest element in a cell is a molecule. One important molecule is the DNA - the structure of the DNA has been revealed and the way the genetic code for all life is transmitted, via the RNA molecule. In fact every molecule contains a series of interrelated industrial plants - they cannot exist alone and are linked together chemically and electrically, and contribute to the life of the main body. The genetic code allows each to duplicate exactly.

A simple illustration is used to describe the "industrial plants" within a molecule - a simple mousetrap. It is made with a solid base (traditionally wood), a spring, hammer, a platform for the bait, and is set by a rod. Each part is made with precision so that it can do its job - to catch mice. No one would suggest that the mouse trap evolved. Someone designed it. Similarly, the inner workings of the molecule reveal the handiwork of a supreme designer.

The conclusion is: the evidence of the molecule reveals that there is an intelligent designer. That designer, Christians refer to as the one true Almighty God.

Behe summarises the findings which destroy the basis of the Theory of Evolution. The cell is made-up of thousands of molecules. Each molecule is made-up of a series of "industrial plants" which in part are inter-dependent. The basic building block of life is complex, not simple. It is patently impossible for life to have evolved. Scientists must therefore acknowledge that there is a an "Intelligent Designer" , a prime cause, a Creator God.

Historical Development of Scientific understanding of the origins of life.

In Charles Darwin's time the basic building block was known to be the cell. No one knew how the cell operated or even how it was constructed – hence the title of the book "Darwin's Black Box". His proposal that the origins of life can be explained " by natural selection acting on variation has been overwhelmingly accepted in educated circles for more than a century, even though the basic mechanisms of life remained utterly mysterious until several decades ago.

The invention of the microscope and the X-ray crystallography and more recently Nuclear Magnetic Resonance (crystals no longer have to be crystallized but can be studied in solution) has facilitated understanding of of the complexities of the Lilliputian world of the cell. Darwin's theory of evolution cannot possibly explain the inner workings of the cell – or molecular systems.

Darwin, a scientist, was ignorant of the reason for variation within the species (one of the requirements of his theory). The reasons have only been possible with a new science – that of Biochemistry which has identified the molecular basis for it. Nineteenth Century scientists could not even guess at the mechanism of vision, immunity, or movement. Modern biochemistry has identified the molecules that allow these and other functions. The molecule is made-up of complex, interrelated "factories" leading them to conclude that life could not possibly have evolved – a higher intelligence has to be involved.

In this book, Behe shows that biochemistry has elucidated all or most of the components of a number of biochemical systems. He discusses a few of them in 5 chapters such as: "**cilium**" (pp59-73) – a fascinating structure which some cells use to swim; **blood clotting** (pp 74-97) – the apparent simplicity of blood clotting is deceptively complicated (if the blood clotting mechanism was not controlled then a cut in the skin and the subsequent activating of the blood clotting mechanism would result in a massive "heart attack"). **Cellular transportation** - how cells transport materials from one subcellular compartment to another, encountering many of the same problems that Federal Express meets in delivering packages(pp98-116); Chapter 6 discusses the art of self-defense on the cellular level; and finally Chapter 7 a look at the intricate system the cell requires just to make one it its "building blocks" (pp140-161).

Since the mid-1950's biochemistry has painstakingly elucidated the workings of life at the molecular level from countless laboratories and thousands of

researchers, “ *Papers were published, results checked, reviews written, blind alleys searched, and new leads fleshed out. The result of these culmulative efforts to investigate the cell – to investigate life at the molecular level – is a loud, clear piercing cry of “design!” The result is so unambiguous and so significant that it must be ranked as one of the greatest achievements in the history of science. The discovery rivals those of Newton and Einstein, Lavoisor and Schrodinger, Pasteur, and Darwin. The observation of the intelligent design of life is as momentous as the observation that the earth goes around the sun or that disease is caused by bacteria or that radiation is emitted in quanta” . (pp 232-233)*” (emphasis added by writer).

5. Astronomy - God - the Creator.

The Psalmist says: " The Heavens declare the glory of God, and the firmament (expanse of heaven) shows His handiwork" **Psalm 19:1**

The Hubble telescope and science have opened up the heavens to mankind. The "Big bang theory remains a theory - something which is presented as a postulate which remains to be proved scientifically. However what we do know is that the Heavens are vast, stars are grouped in clusters as galazies and there a countless millions of galazies. Our own earth's solar system with one sun lies on the extreme edge of a galazy which is dish-like in shape.

God's Holy Word says: " In the beginning God created the heavens and the earth." Genesis 1:1. A simple statement, loaded with simple awesome power. God created something out of nothing. He created it all by one spoken word. God created the heavens and the earth.

Isaiah 40: 22 says: " Have you not known? Have you not heard? Has it not been told to you from the beginning? Have you not understood from the foundations of the earth? It is He who sits above the circle of the earth,... Who stretches out the heavens like a curtain, And spreads them out like a tent to dwell in " See also Isaiah 42:5

The flat earth pundits did not know that God declared in antiquity that the earth was round, not flat. The heavens are stretched out like a curtain - in a long thin but wide row, and there is an Alpha point - a beginning. .

Job 38:4-7 " Where were you when I lay the foundations of the earth? Tell Me if you have understanding. Who determined its measurements? Surely you know! Or who stretched out the line upon it? To what were its foundations fastened? Or who laid its cornerstone, When the morning stars sang together, and all the sons of God shouted for joy?

Science has discovered that the stars do indeed sing - we can tune-in and hear them sing!

6. The Chinese Language

The Holy Bible can be read as a narrative, and it can be read as a series of numbers. The works of mathematicians such as the Russian Ivan Panin and three Jewish ones - Rips, Witztun and Rosenberg prove beyond any

reasonable doubt that the Scriptures are unique in the world and in fact do contain the unmistakable seal of God - the Holy Bible contains His Words as he moved Holy men to write down under the unction of the Holy Spirit.

The Chinese language also contains the unmistakable seal of God - the pictograms contain the story of creation from Genesis chapters 1 to 6. Painstaking research back to the beginning of ancient Chinese writing has unraveled the fact that the original Chinese knew of the Creation story and the history of man leading to the great flood and how Noah, his three sons and their wives were saved.

Read: C..H. Kang and Ethel R. Nelson (1979) " The Discovery of Genesis - how the truths of Genesis were found hidden in the Chinese language " Publishers Concordia Publishing House Saint Louis

Ethel R. Nelson / Richard E. Broadberry (1994) " Genesis and The Mystery Confucius Couldn't Solve. " Publishers CPH Saint Louis

Available from Christian bookshops.

In the last analysis, each man and woman must confront the simple facts of the life, death and resurrection of Jesus Christ. That Jesus Christ lived is indisputable. That Jesus Christ died is a given. That He rose from the dead is unbelievable to many. But irrespective of what you and I believe, the fact is that He did rise from the dead. He proved it to His disciples. He proved it to His brothers and sisters and His mother (His foster Father Joseph had apparently died at some time in His youth) He proved it to 500. He proved it to Paul who was responsible for the murder of Stephen the first Christian martyr and others - such that when Paul was confronted by the resurrected Jesus Christ, he had no option but to switch camps and become one of the hunted ones. He has appeared to many down through the annals of history. And, He has saved me! All the proofs in the world will not convince you if you are determined not to believe!

You need to

” Repent (change your mind-set), and let every one of you be baptised in the name of Jesus

Christ for the remission of sins; and you shall receive the Holy Spirit.

For the promise is to you and to your children, and to all who are afar off, as many as the Lord our God will call ” Acts 2:38-39

**” If you confess your sins , He (Jesus Christ) is faithful and just to
forgive us our sins and to cleanse us from all unrighteousness ”**

1 John 1:9

You can do this right now, where you are..... Kneel down, humble yourself, confess your sins and ask Jesus Christ to forgive your sins (name them) and ask that His blood will wash your sins clean, so that your conscience will be as clean as a whistle, so that you will become righteous in His sight (that is to be covered by the Lamb of God, Jesus Christ who died on The Cross and rose from the dead, and ascended into Heaven, so that we can have the assurance of Eternal life.

If you have any queries ask a friend who has met our Lord and Saviour Jesus Christ or e-mail me, Lawrence at : lp.wong@xtra.co.nz
